

## Week02 AI Journal Entry

This week, I mostly used AI for personal reasons. I only needed help with about 2-3 exercises questions and it broke down the Python concepts necessary and to give me coding examples to go off of for concepts like .

Here are my AI chat links. <https://chatgpt.com/share/68caf64c-7ca8-800c-8309-b0184e58108d>

It was very helpful, especially for exercise 26, as I didn't have a good understanding of what to do to merge.

I am still very used to ChatGPT, but I have tried using Claude. I haven't had any questions for it yet but I like the onboarding and how personal it got. I haven't gotten around to trying grok or gemini yet but I do plan on trying them soon when an opportunity arises.
